mall Wonder Industries, a Chemco group company, is basically engaged in manufacturing and marketing of Baby Care products. Small Wonder Industries, is having its hi-tech world class manufacturing facilities located at Silvassa, Dadra & Nagar Havell, India.

Small Wonder Industries is proud to be the first company:

1. To Introduce Stretch Blow Moulding Polycarbonate (P.C.) Feeding bottles to Indian Market. This technique offers remarkable advantage over conventional Injection Blow/Extrusion Blow moulding bottles.
2. To Introduce world class Liquid Silicone Rubber (L.S.R.) Nipples to Indian market. As on today, L.S.R. Nipples have been able to capture the confidence of quality conscious people all over the world due to its excellent quality compared to Latex/Natural Rubber Nipples.
3. To Introduce "X" and "Y" Laser cut In L.S.R. Nipples In India. The X and Y cut Nipples facilities automatic flow control of the feed.
4. To be awarded ISI Certification for Polypropylene (P.P) and Polycarbonate (P.C.) Feeding bottles.

1. 'SMALL WONDER' feeding bottles are made from superior quality polycarbonate from world class Bayer, Germany.
2. 'SMALL WONDER' feeding bottles are made from superior quality Random copolymer which contains special clarifying agent for clarity. These bottles are made by stretch blow moulding process which enables smooth finishing of the bottles particularly the neck portion. It is strong and odourless. Also the manufacturing process is taking place in completely hygienic condition and the bottles conforms to International Standards.
3. SMALL WONDER Nipples are made form Silicone Rubber from Bayer AG, Germany. Liquid Silicone Rubber nipple is the latest innovation in the industry which gives more safety and durability than the Latex/Rubber nipples. Our latest introduction is 'X' and 'Y' cut Nipples for feeding liquids having different density. This will enable free flow of the liquid of different density and help to avoid inconvenience to the child.
